# HP Desktop Security Solutions

Protect your data, computer hardware, and network assets with HP Desktop Security Solutions. HP offers a range of hardware and software security products to help protect your investment and secure the data stored on your PC or network.

Chassis Security
Protect PCs from unauthorized use, tampering and theft with lock-down products from HP. Clamp locks physically lock the chassis cover to the chassis and simultaneously clamp the keyboard and mouse cables. A Rear Port Controller can be clipped into the back of the PC assuring input devices cannot be added or removed from the system, while a Solonoid Lock can be attached to your PC to act as a hood sensor or chassis cover lock, with the appropriate software (included).

Smartcard Technology
Smartcard technology prevents unauthorized access to a PC or network. Used as a standalone USB device or as part of the HP Modular keyboard, the HP Smartcard Adapter complies with ISO7816 standard, which enables deployment of two-level user-authentication. The HP Smartcard Adapter kit includes a HP ProtectTools smartcard and smartcard manager software that can be used alone or tied into a Smartcard backend infrastructure.

Data Protection and Backup
Avoid downtime and data loss by protecting your files. From a CD-RW or DVD+R/+RW to a dedicated backup solution such as ZIP or Tape drive, HP has a broad offering of data backup solutions to meet your budget and needs.

Data Security
HP ProtectTools are HP's most secure solution for data security. The ProtectTools Module (TPM) is a hardware module that attaches to the PCA. The ProtectTools Module stores root secrets that are kept in hardware temper-resistant chips rather than in a file on the system hard disk, fortifying the authentication. PC security is enhanced as the ProtectTools solution authenticates not only the user but a specific user that is recognized by a specific desktop or notebook.

Network Security
Gigabit connectivity supports Alert Standard Format (ASF) manageability. ASF is an industry standard protocol that will detect or monitor system characteristics such as sending an alert if components are added or removed on your networked PCs. You can even remotely manage your PC with or without an operating system present.

Wireless LAN Security
802.1x security protocol is stronger than many alternatives, putting secure Wireless LAN access within reach for your business, addressing concerns over authentication and automating the distribution of encryption keys. Implement more robust secure wireless networks with 802.1x support.

HP Desktop Security Solutions

HP Desktop Security Solutions

Chassis Security	Chassis Clamp Lock (DE817A, DE818A)
	Rear Port Controller Cover (DE897A)
	Kensington Lock (DC368A)
	Solonoid Lock (DE618A, DE472A)
	Wall Mount Security Sleeve (PA717A, PA719A)
SmartCard Keyboard	HP USB 04 Modular Keyboard (DT530A,)
	Smart Card Adapter Kit for 04 Modular Keyboard- Includes protect tools SC. (DT531A)
Optical Drives	48X CD-RW Drive: Price/Performance. Value optical back-up and archiving solution (DL975B)
	8X DVD+R/+RW: High speed, high storage capacity, cost effective storage solution (DQ820B)
	48X Combo Drive: Combined functionality of DVD-ROM and CD-RW (DC197B)
MultiBay Drives	MultiBay 24X Combo Drive (DL974B)
	Multibay 4X DVD+R/+RW (DG189A)
Data Protection and Backup	Tape Drives: Fast back up and restore solution (up to 120MB per minute) with high storage capacity (up to 20GB of compressed data per tape). (DC139B)
	Zip Drives: High capacity storage (750MB - up to 500 floppies), 20 times faster than a floppy, scratch-resistant media. (DC140B, DC518B)
	MultiBay Hard Drive (DC894A, DC920A , DC365A)
	USB 2.0 40GB External Hard Drive DQ549A
	USB 2.0 160GB External Hard Drive
HP ProtectTools	Available as a configurable option on HP Compaq dc7100 desktops
Gigabit NICs	Broadcom NetXtreme GB Ethernet PCI Adapter (DC194A)
	Intel Pro/1000 MT GB Ethernet PCI Adapter- Full Height Only (DC193A)
	Intel Pro/1000 MT GB Ethernet PCI Adapter – Low Profile Only (DC193B)
Wireless LAN	HP WL500 PCI (802.11A/G) WIFI Wireless LAN (DV649A, DV649B)
	HP USB Bluetooth Transceiver (DN650A)
	HP USB Bluetooth Transceiver for HP 04 Modular Keyboard and Mouse (DN650B)
